LANDING PAGE: A creative, engaging, and customized page for your TreePlotter application.

8 This add-on module allows you to be in control of how you want your clients and constituents to engage with your application, utilizing images, videos, training, contact information, on-brand color selection, and much more.

Driving your marketing and outreach efforts the second your audience visits your TreePlotter application.

Lead your clients or constituents to connect and direct their attention to your specified call to action.

9 1 TELL US ABOUT YOURSELF

Enter contact info, create a username, and tell us what communications you want to receive.

2 ADD TREES

Add trees by address or the map tools

3 CONNECT

Explore these ways to get involved in training, planting, maintenance, events, or social media.

Landing Page Template 2 Client Questionnaire

1. First color choice in RGBA format. The dark blue color in the image above.
2. Second color choice in RGBA format. The light blue color in the image above.
3. Welcome bar Text.
4. Up to two logo images in .png, .jpg, .gif or .svg format. Main image in .png, .jpg, .gif, .svg format. Please email these images as an attachment along with this completed form to support@planitgeo.com
5. Main image in .png, .jpg, .gif, .svg format. Please email these images as an attachment along with this completed form to support@planitgeo.com
6. The text and functionality you would like to have for each of the 4 buttons. These buttons can perform certain actions within TreePlotter™ or be a link to any URL.
7. Text for tree count.
8. Text for main body.
9. Are you including Public UI buttons on your landing page designed for volunteers to interact with TreePlotter™. If you are let us know which buttons you want here.
